Deep wood processing
Packaging production
Woodworking

The use of modern technologies allows our company to produce not only containers of standard sizes, but also to quickly produce non-standard products according to individual customer orders.

COMPANY

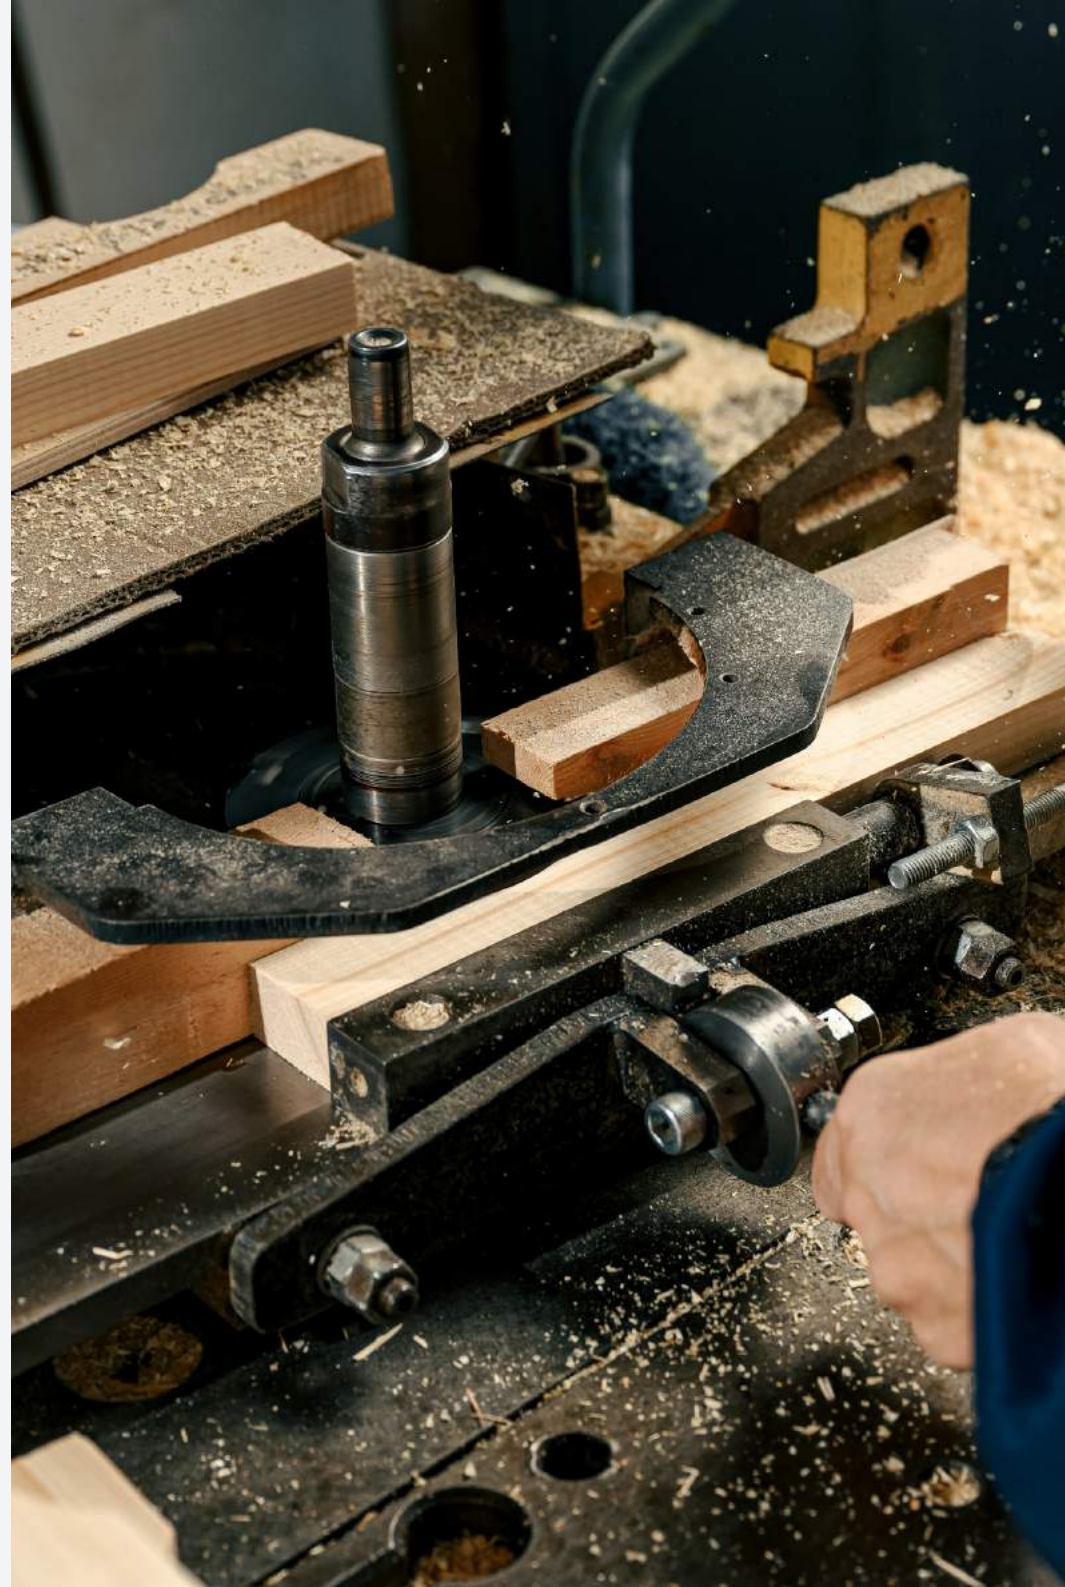

The company's products are wooden packaging

The production company Forest Prom Group LLC has been operating on the market since 2021. The company has 5 production sites in the Sverdlovsk region with a total area of more than 10,000 m² and storage areas of more than 10,000 m², our own heavy vehicle fleet.

The main activity of the company is the production of special and general-purpose wooden packaging using modern equipment and advanced technologies. More than 30 units of modern woodworking machines and 140 units of equipment have been installed and are operating at the company's production facilities.

Currently, the company employs more than 500 people. The company's capacity reserve reaches 50%. With an increase in volumes and orders, the enterprise in a short time increases production capacity and the number of jobs.

Dmitry Krutikov
General Director

PRODUCTS

Production of wooden containers for special and general purposes

The company provides services for the production of special and general-purpose wooden packaging. The use of modern technologies allows our company to produce not only containers of standard sizes, but also quickly produce non-standard products according to individual customer orders. The overall dimensions of wooden boxes may vary depending on the shape and weight of the product to be packed. Wooden boxes can be equipped with metal fittings for strength, fixation of closure and easy carrying. At the request of the customer, the box can be painted with inscriptions.
