

Production of hidden doors

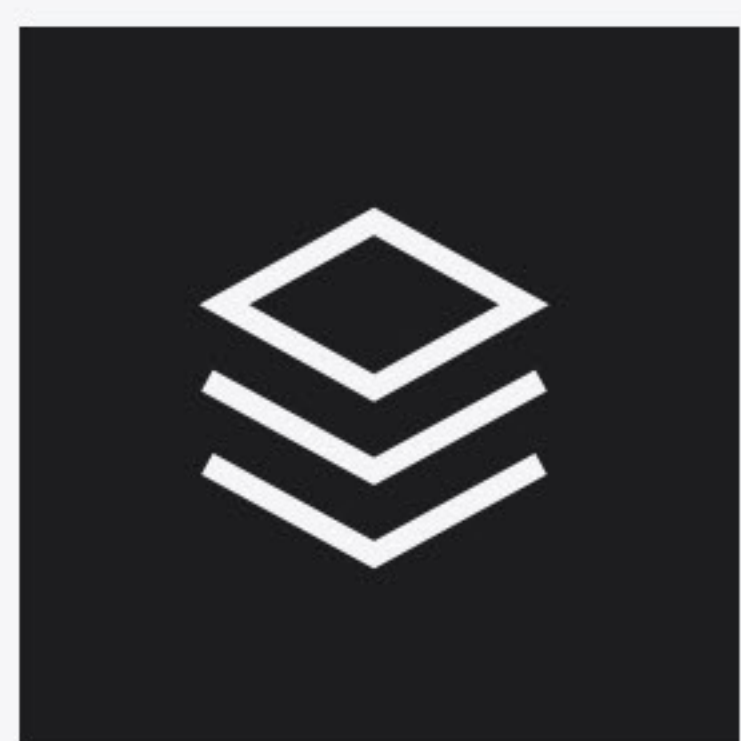

DO DOORS

Hidden doors

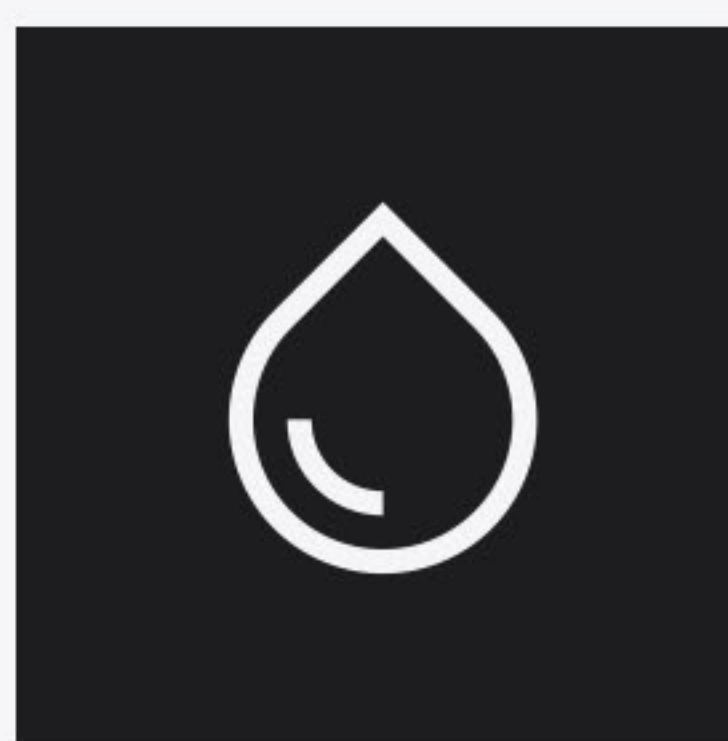

Door studio DoDoors

realization of every client's wish in unique details

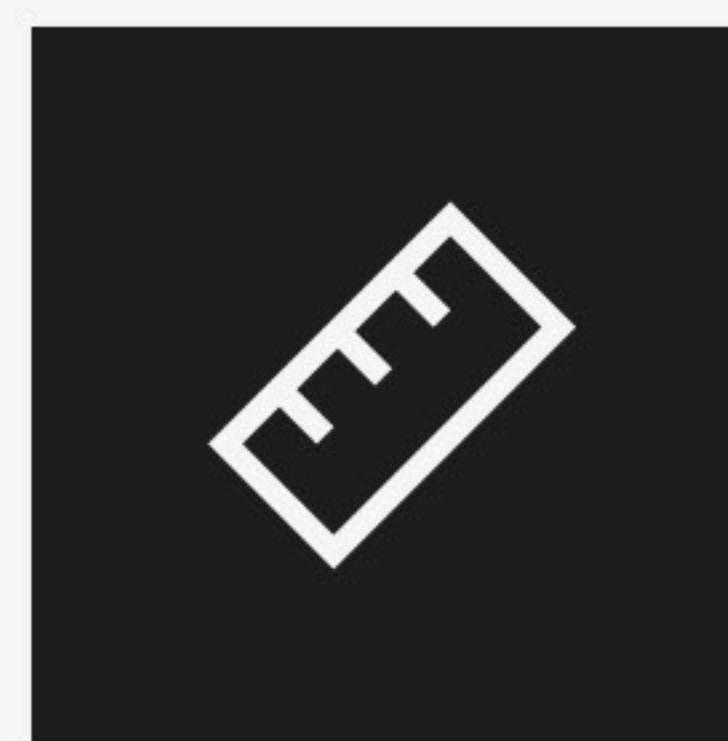

Finishing

natural stone, veneer,
glass or **any** other **finish**
of your choice

Color

painting of the box profile or
the canvas frame according
to RAL, the canvas
according **to RAL or NCS**

Accuracy up to 1 mm

change sizes **in**
increments of 1 mm
without extra charge
for non-standard

The aluminum base
and non-hygroscopic
filler of the DoDoors
canvas last for
100 years.

DoDoors serve

100
years

Anodized aluminum

It does not deform during operation. Ensures
reliable operation of the door for years.

All-aluminium box

Moisture-resistant material. The canvas retains
its shape, does not dry out or swell over time.

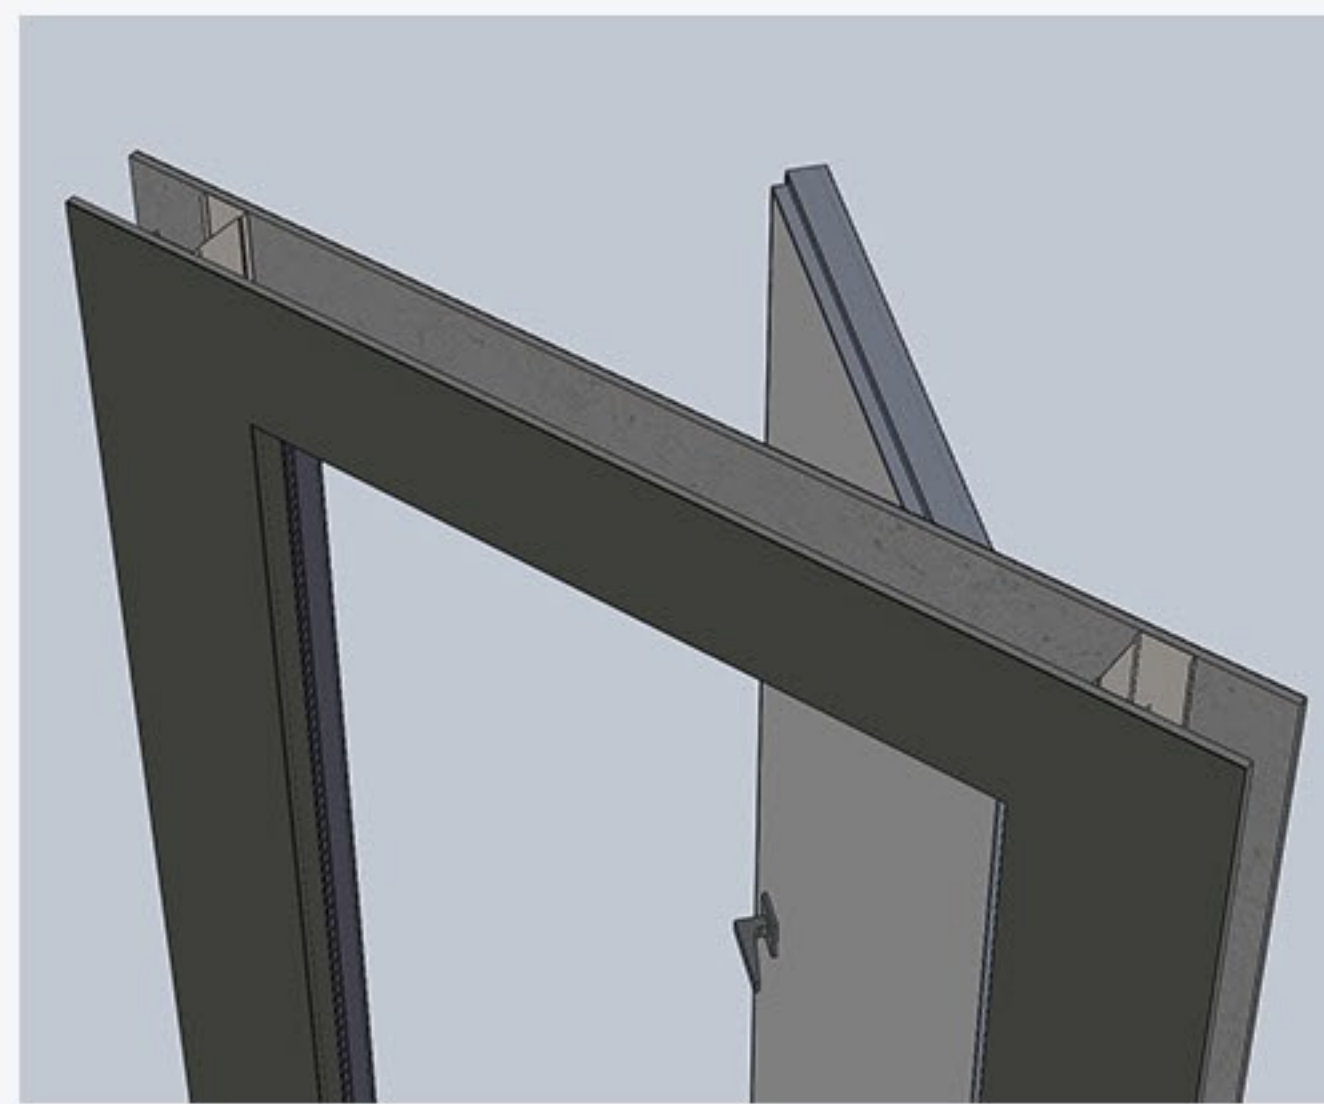

No noise

The inner layer of the door is non-hygroscopic,
does not deform the leaf, reliably retains heat and
insulates noise.

Selection of door model for any operating conditions

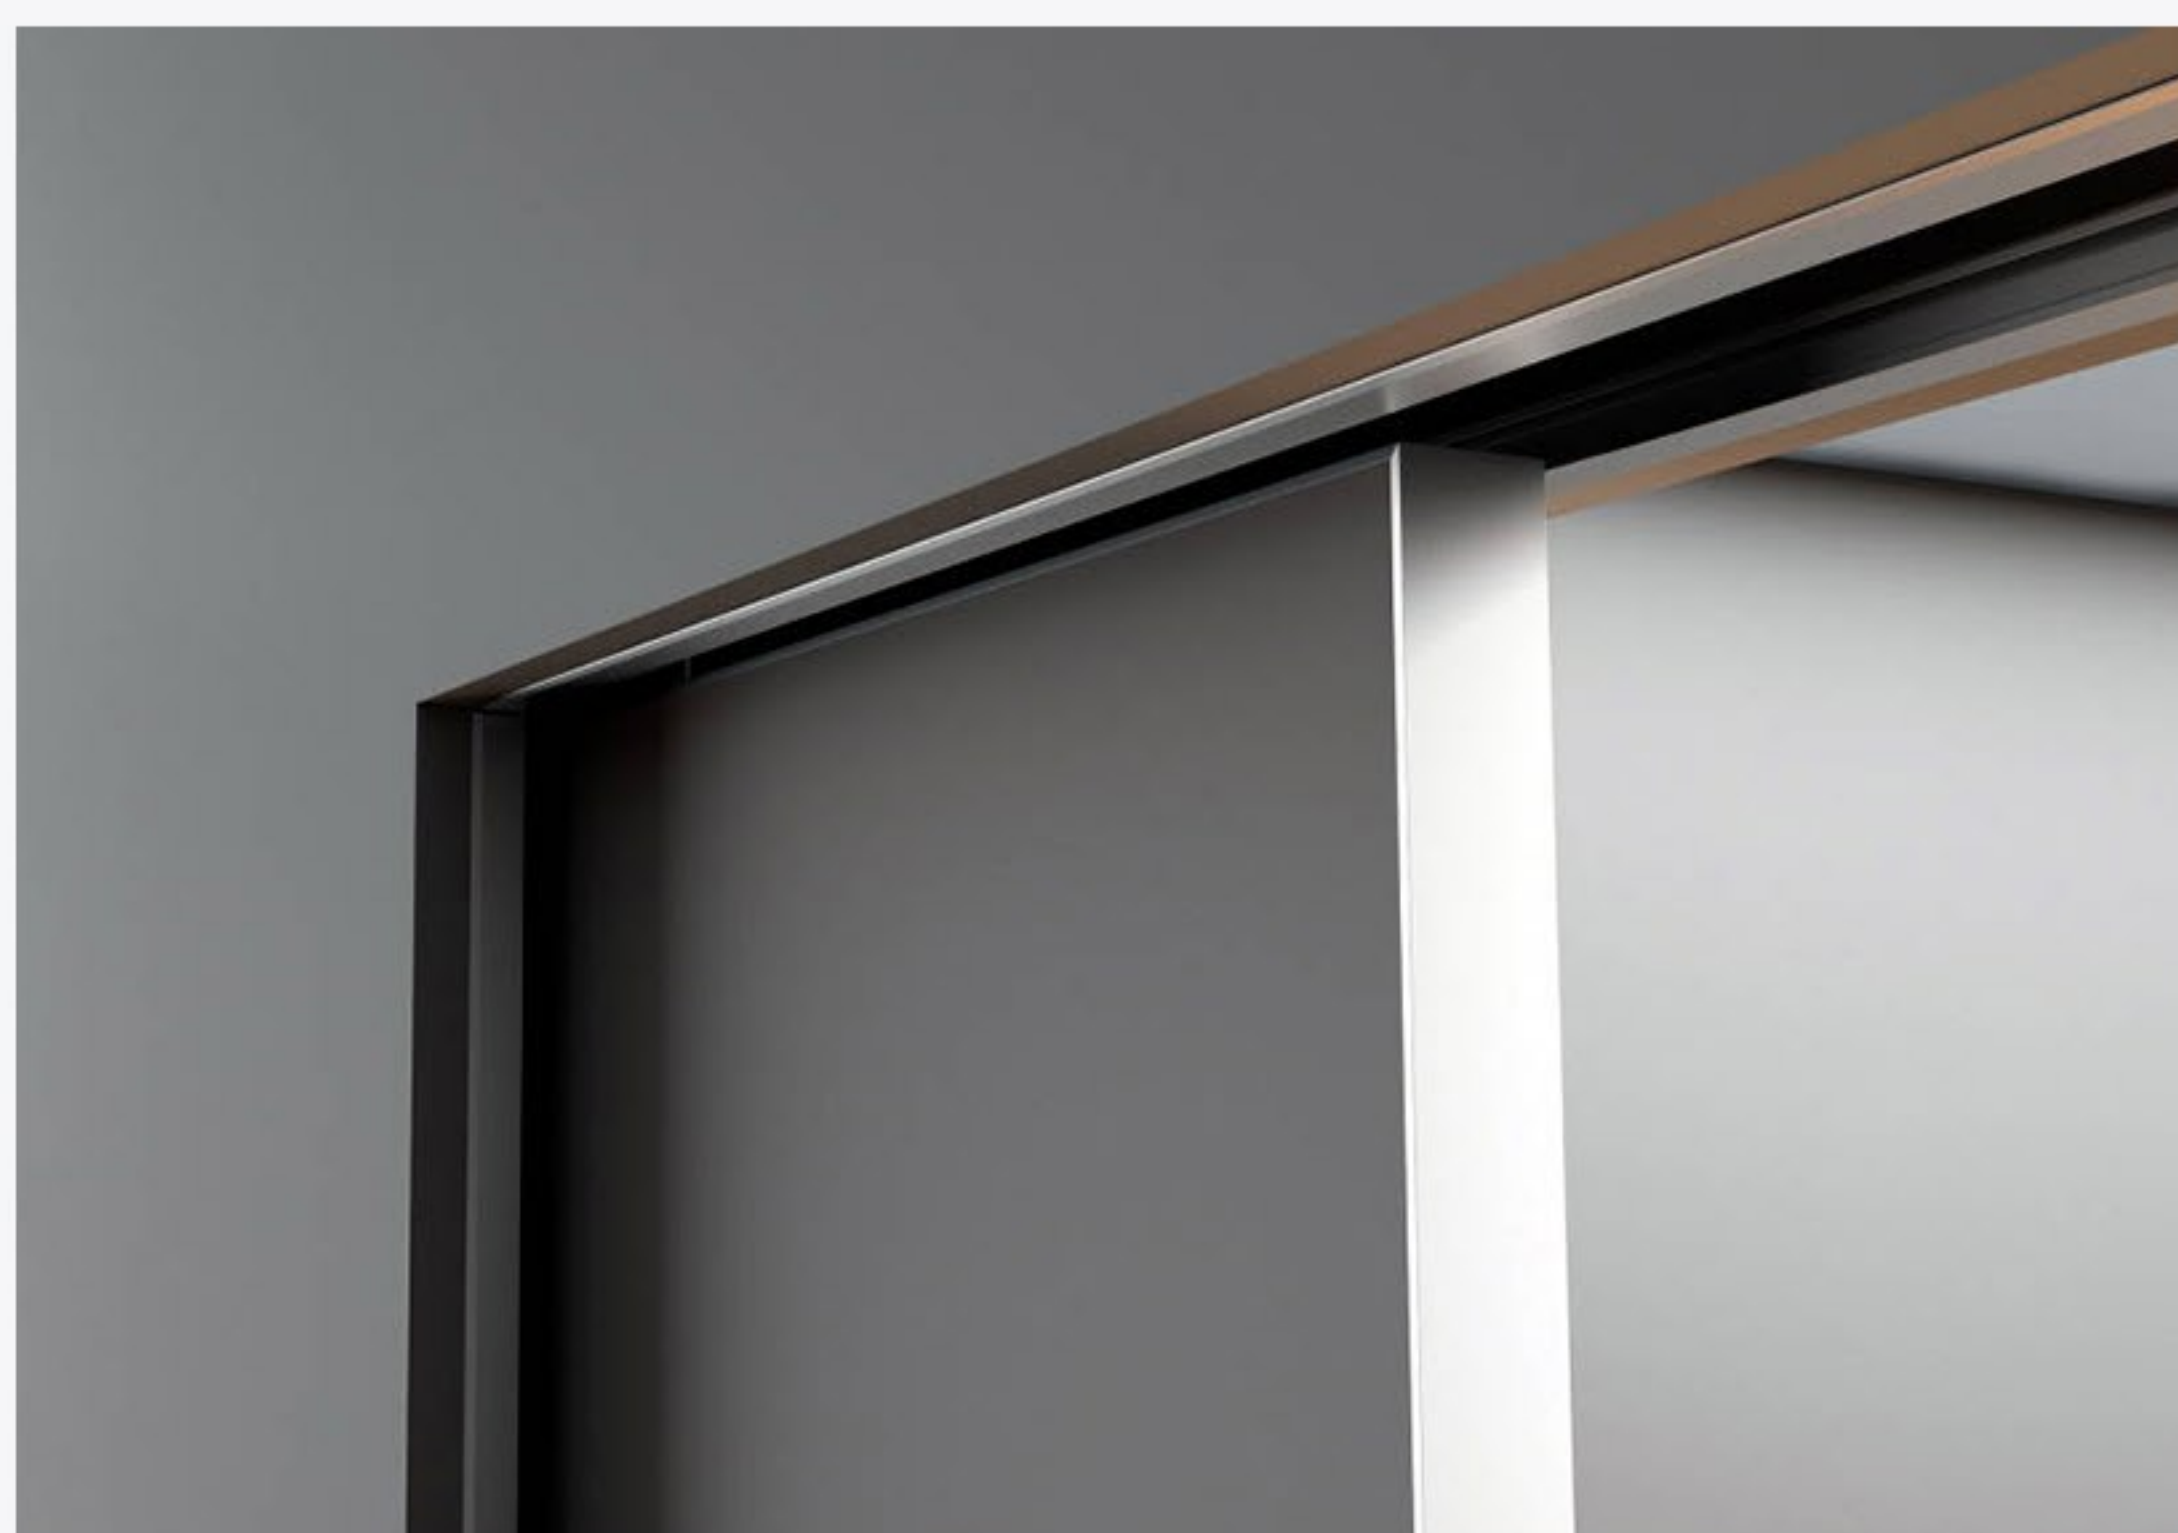

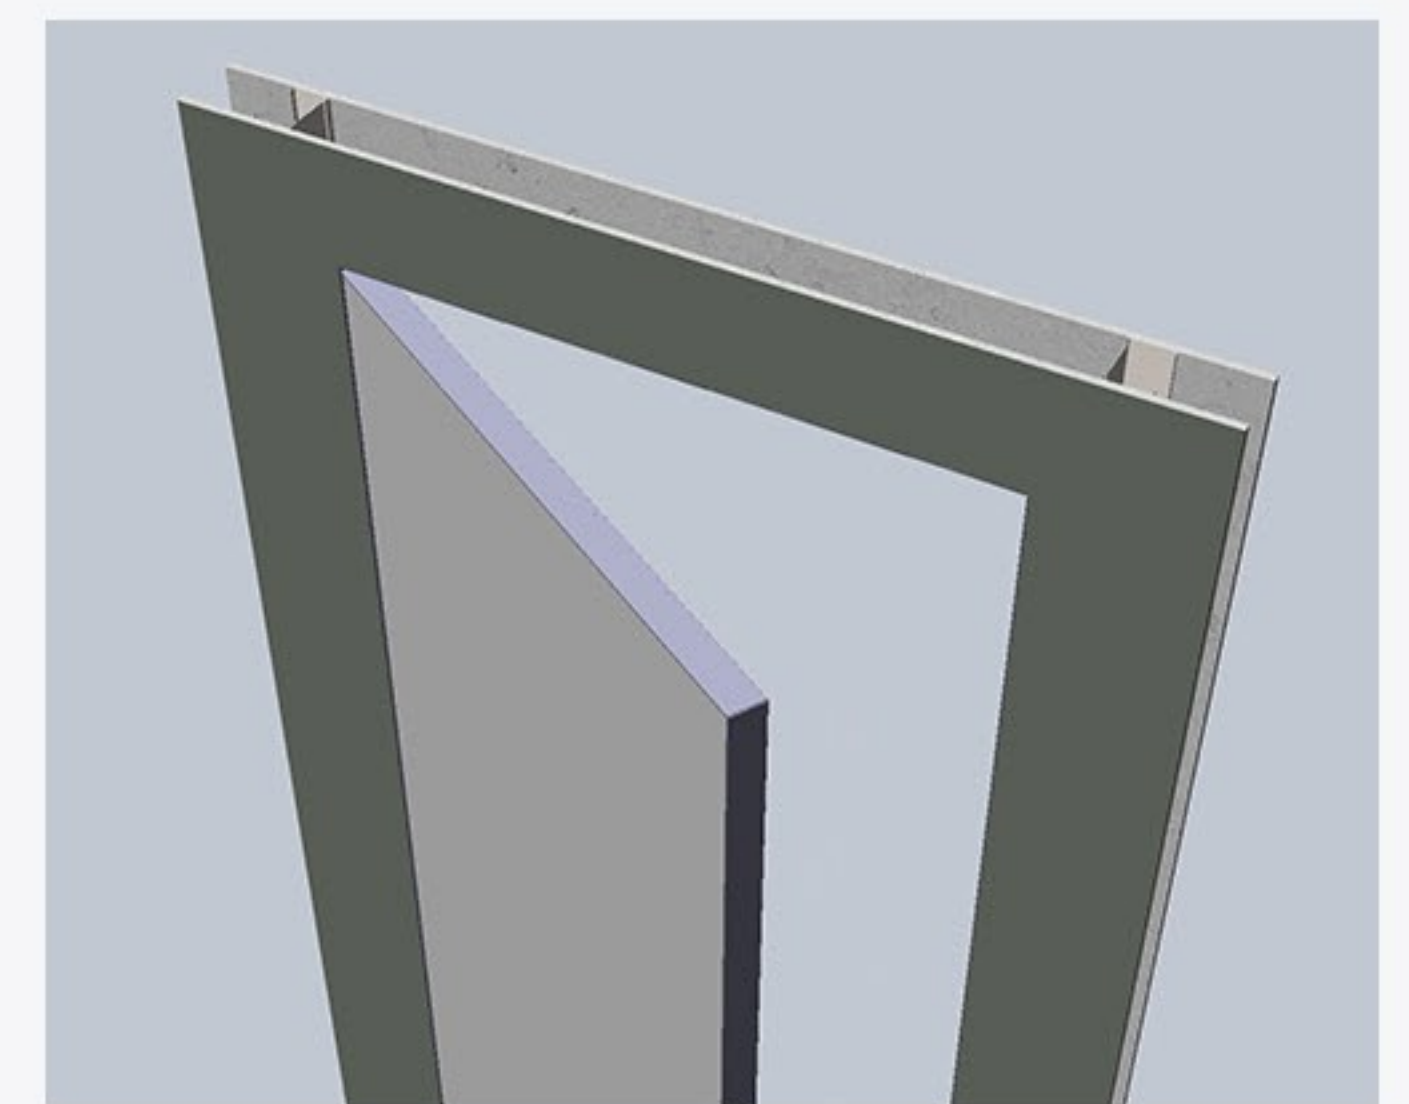

For example, for damp rooms or in contact with sea air, Agua models and doors
with glass trim are suitable.

2 options for profile thickness and DoDoors opening

thickness **59 mm**,
opening «towards» you
or «outwards»

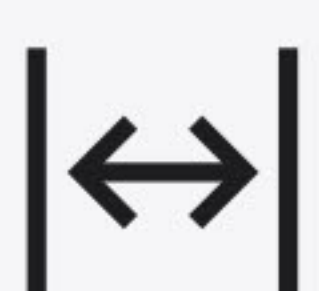

thickness **43 mm**,
the door opens
towards you

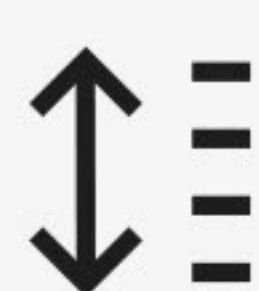

Sliding into a case

A door that, when opened, slides inside the wall into a special niche (case).

Unique door leaf sizes without extra charge for non-standard

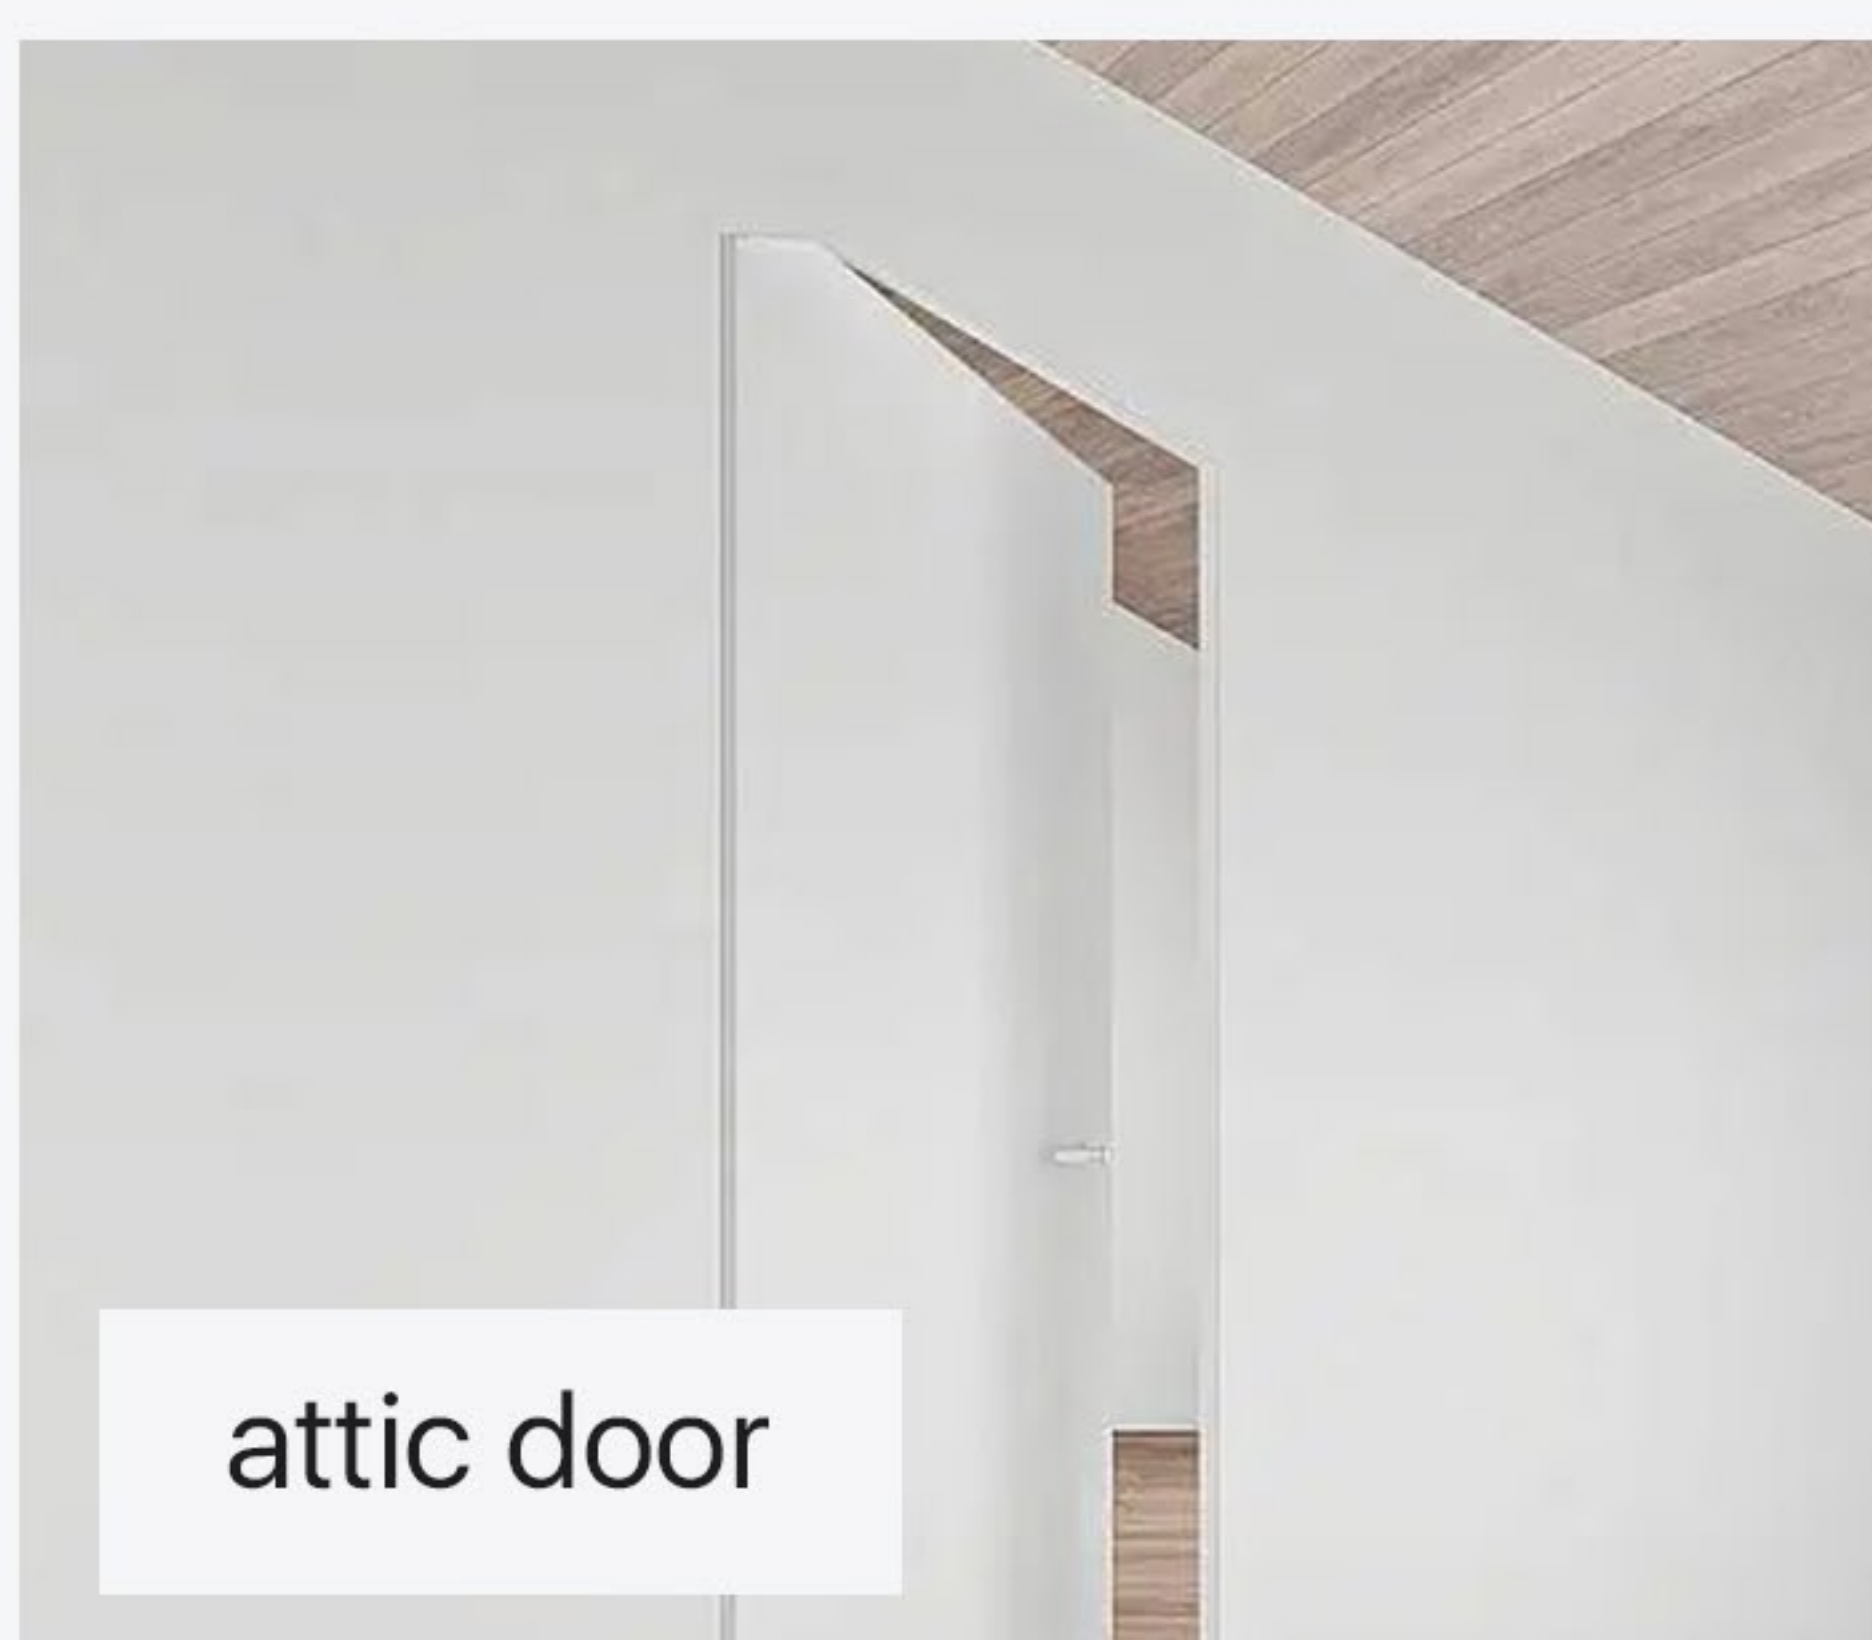

width
from **20 cm** to **150 cm**

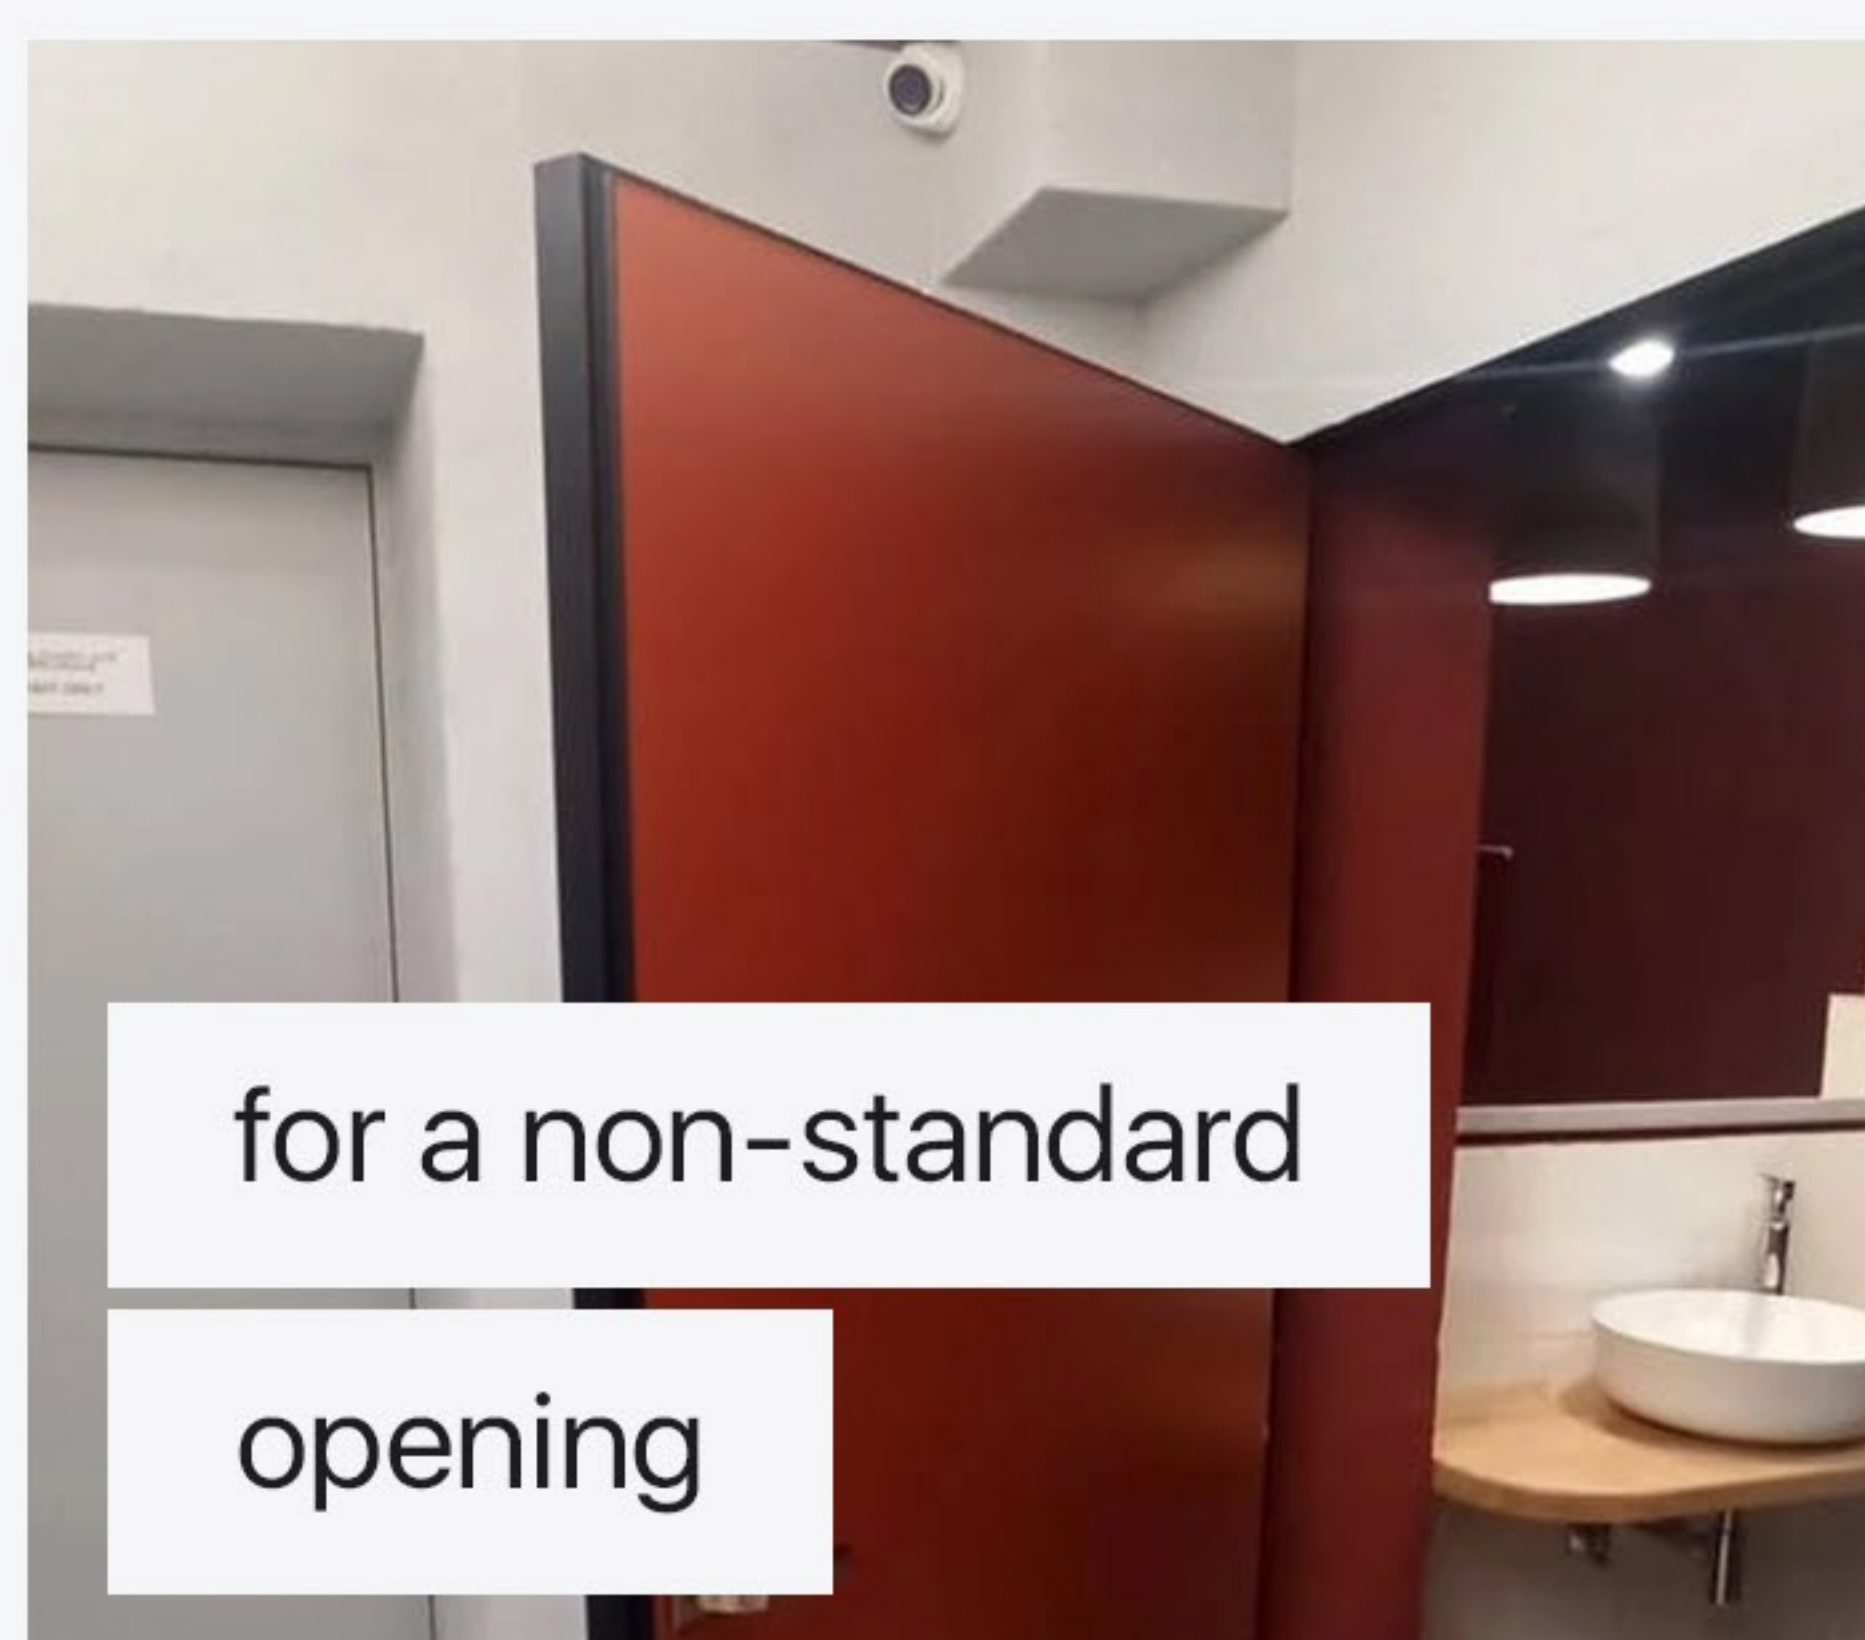

height
from **45 cm** to **500 cm**

the step of changing the
dimensions of the door leaf
is **from 1 mm**

attic door

for a non-standard
opening

ceiling door

DoDoors - digitized production in Russia

with an annual turnover growth in 7 times

Big data-based management and advanced IT tools are the secrets of multiple company growth.

- **Automatisation of door cost calculation** based on individual parameters.
- **Instant contract** and invoice generation and sending to your smartphone.
- **Direct contact** with the founders and managers of DoDoors via digital.
- **The future is already here.** Regular implementation of new IT developments into business processes.

Co-founder of DoDoors Svetlana Popova

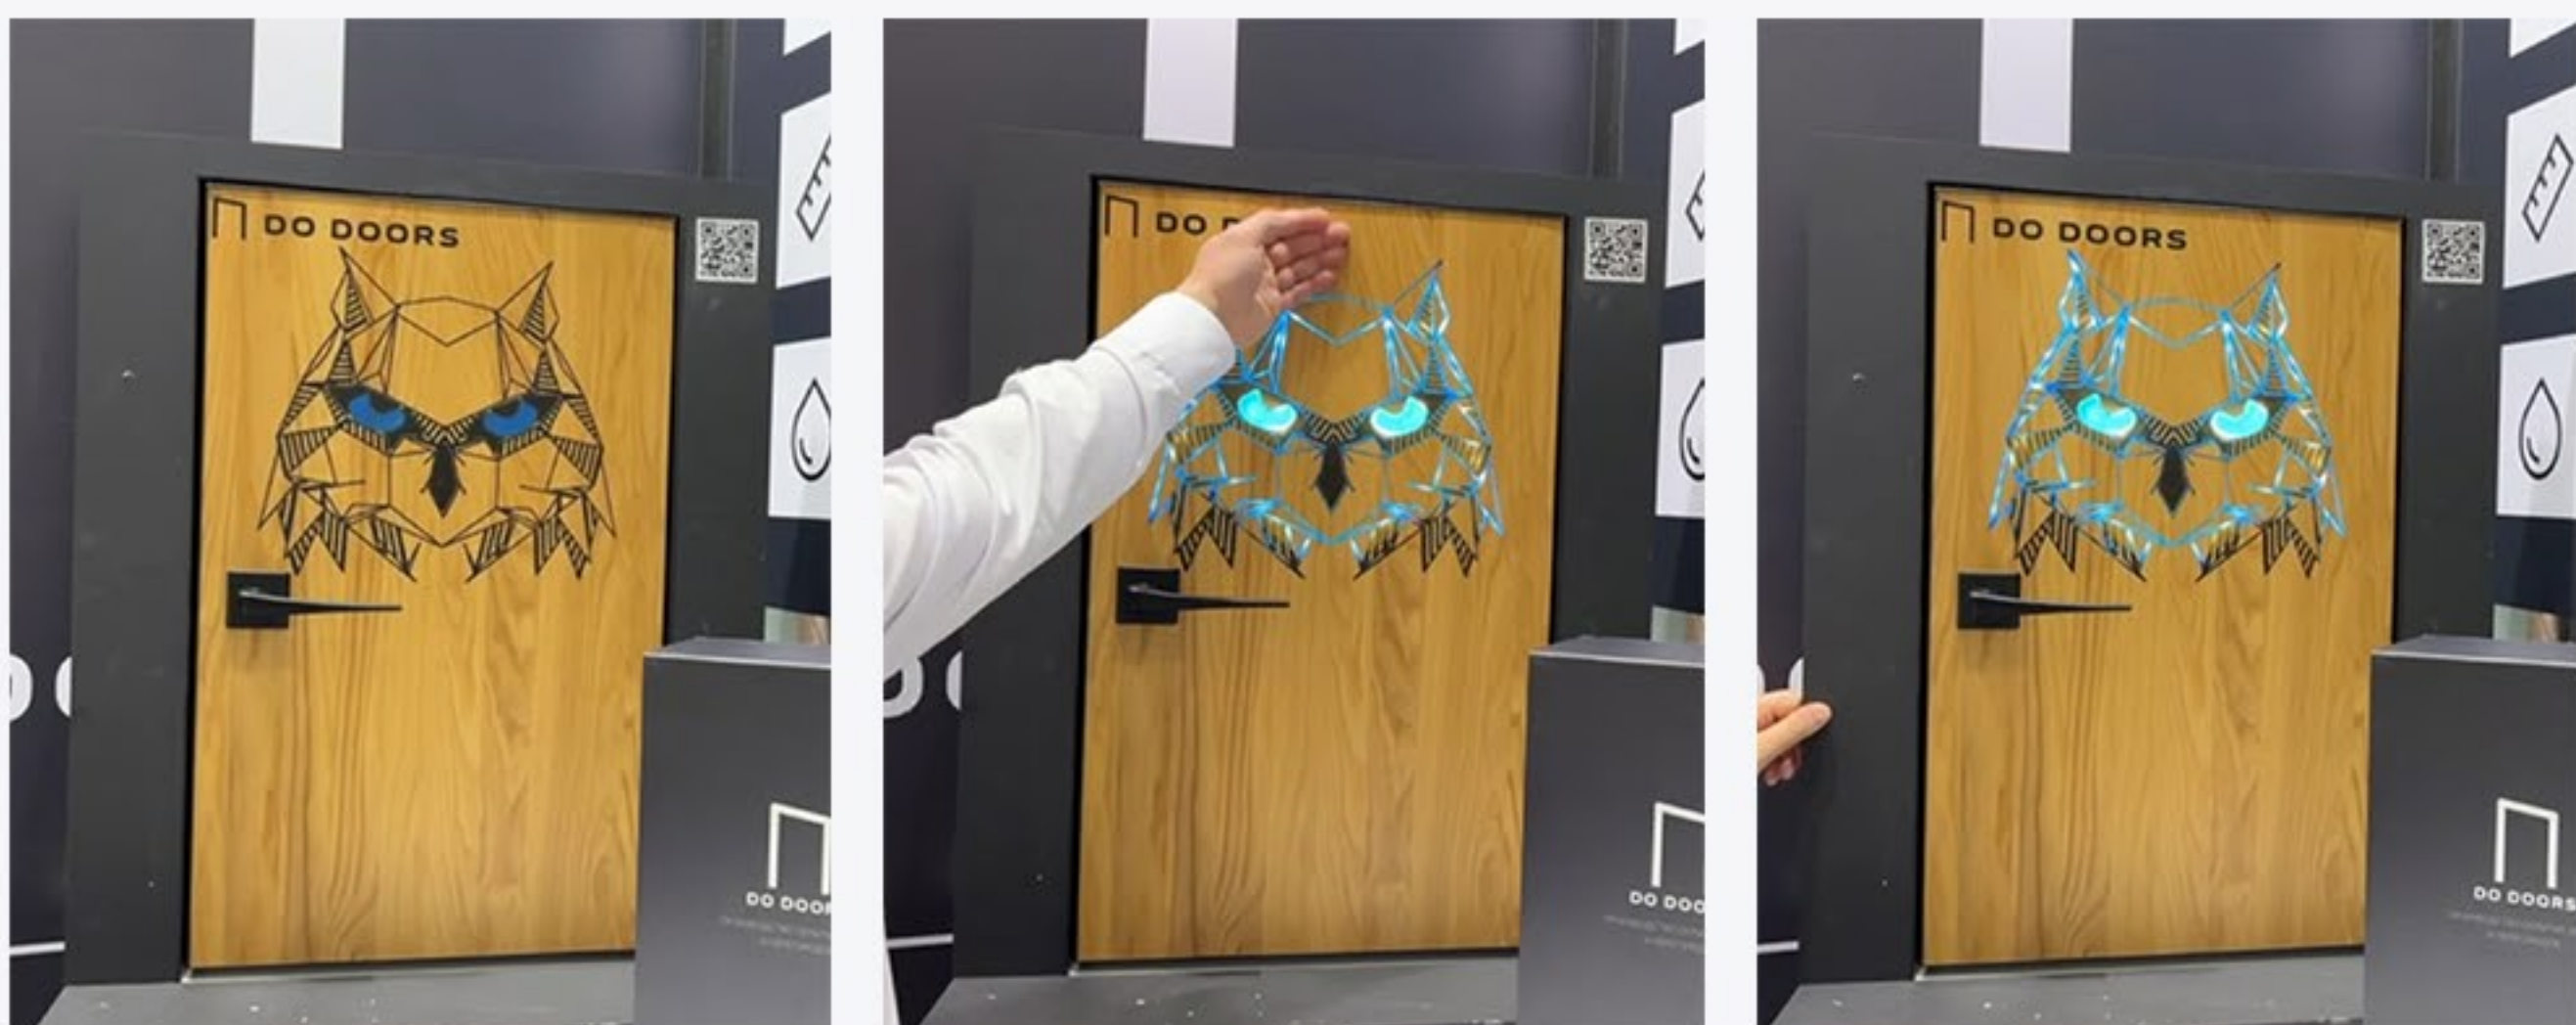

is the speaker of the International Municipal Forum of BRICS+ countries on the topic «Digital technologies for quick start and intensive production development».

Marketing support for dealers and unique promotional tools from DoDoors

Brand promotion at international forums, exhibitions and by digital marketing tools.

Creating **interactive promotional doors** that stand out from the rest.

Demonstration of the future door right on spot. Show-box constructor for assembling DoDoors models from different frame and profile materials.

for example,
a combination of different finishes
with either a black or white door edge
