ТЕХНИКА ХОЛДИНГ

History. 1994-s

1994 - Foundation of the Russian-German company EkoNiva.

Since 1998, we have been engaged in the supply and sale of spare parts for imported agricultural machinery.

EkoNivaTeknika-Holding is a supplier and official representative of the world leaders in agricultural machinery.

Today, the company holds a leading position in the supply and service of agricultural machinery in Russia, and also has an established market reputation as an expert.

The company sees its task in promoting modern agricultural machinery and advanced agricultural technologies to the Russian market, which make it possible to engage in agriculture as efficiently as possible and develop the agricultural sector.

Our goal is to develop a partner network to improve the efficiency of supply channels for spare parts for agricultural and road construction machinery.

The company sells machinery and spare parts in the following directions:

- Road construction equipment
- Tractors
- Combine harvesters
- Loaders
- Sprayers
- Balers
- Mowers

- Manure collectors
- Seeding equipment
- Tillage equipment
- Preparation and application of fertilizers
- Roll forming machines
- Agricultural trailers
- Potato technology
- Precision farming technologies

The spare parts of the world's leading brands

							
							
							
							
							

and etc.

We are ready to consider options for potential cooperation:

Anastasia Stikhar

Lead Manager of Parts Supply
